

## FATBOX

FM / AM / Aux-in  
Ultra Rugged Radio Receiver

Color

Red

Sangean's "new" FB-100 ruggedly-built work-site Industrial/Utility High-Performance AM/FM Radio includes leading-edge features like clear FM-reception by the digital PLL-tuner, 2 AUX-In Ports for your MP3, iPod player, rain-resistant, rain-resistant media storage compartment, large backlit LCD display to ensure excellent visibility, equipped with a built-in battery charger for charging universal size D Ni-MH batteries and offers the highest quality audio sound with 6 equalizer settings for those noisy environments. 12Volt DC cable and Audio-AUX cable are included.

Large backlit LCD display  
Equalizer function, 6 settings

The FB-100 FATBOX features an extremely durable protective roll cage made of tough heavy-duty ABS plastic that can withstand a fall from 6 feet and sustain over 250 pounds of weight.

The ergonomic design blocks out water, dust, and other harmful elements from damaging its interior components with its sealed buttons, speakers, and battery chamber.

Equipped with firm and flexible rubber antenna that boosts reception yet can still be folded to stay protected within the protective roll cage.

Best of all, the new and improved audio sound system delivers clearer, bolder sound even from a noisy environment job-site due to a more powerful amplifier and premium speakers.

Advances in AM / FM reception and sound continue to make the FATBOX the best job-site radio in the industry. It also has 6 memory presets for each AM / FM.

The FATBOX has various EQ options that allow the user to tailor or personalize the sound to custom cutting or boosting of specific frequencies. Or, there are six modes of EQ for specific music genres, either for rock, pop, outdoor or simply flat.

Equipped with two incredible 6.5 inch waterproof speakers with high-quality full-range sound, providing sufficient audio quality especially in noisy environments.

Includes intelligent dynamic loudness compensation that adjusts low-pitched sounds for better bass tones.

The FATBOX is equipped with a built-in battery charger for charging universal size D Ni-MH batteries. This offers you the freedom to listen to your music anytime and anywhere. You are also able to charge the batteries from either the DC 12V. (12V cable included, batteries are not included)

\* batteries not included

Rain resistant Media Storage  
Compartment with AUX-in  
(MP3 not included)

Equipped with two Aux-in ports for any external player. One of the Aux-in ports is hidden inside the media compartment with protective foam on the inner wall which prevents scratches on your iPod, iPhone or MP3 player.
