PR-D4W AM/FM Weather Alert Portable Radio with AM Auto Tracking for improved sensitivity and Bandwidth Narrowing to obtain superior AM reception and crystal clear sound. With less noise and interference you'll experience great reception no matter where you are. You'll also be kept informed through severe weather conditions, emergencies or power outages with the Weather Alert function.

Sangeans PR-D4W is equipped with AM Auto Tracking that will automatically optimize the sensitivity of the station you're tuned to and helps pull in distant stations.

With Sangeans adjustable RF Bandwidth Narrowing technology usually found in more expensive and professional multiband receivers you'll notice improved selectivity on all your AM and FM stations. By adjusting the Bandwidth, your able to reduce neighboring station interference, getting clearer reception while receiving signals in bad RF environments. Wider bandwidth and frequency is obtained while receiving a stronger and clearer station.

The PR-D4W is a very versatile and well-designed portable AM/FM Radio coupled with being certified as a "Public Alert" emergency device. It features a built-in dual alarm clock, 25 memory pre-sets, sleep and snooze function and an easy to read large LCD display. All of these capabilities make the PR-D4W a reliable companion for the bedroom, kitchen, garage or anywhere you want to be connected to the outside world.

Weather still plays a sometimes dangerous role in our lives Internet and Television are usually a good source of information, but in some weather emergencies a portable radio can be essential. The PR-D4W will ensure that you have weather information anytime during a storm or an emergency. A siren function will alert you during extreme weather conditions or emergencies to help you be prepared and safe.
