BTS-102 Ultra Portable NFC Bluetooth Wireless Stereo Speaker

You'll be amazed by the big sound that comes out of the BTS-102. Sangean has expanded its line of Bluetooth speakers to include the ultimate wireless speaker. Utilizing advanced Bluetooth technology featuring aptX brings out the full potential of your music from your smartphone, Laptop or Tablet

Small Size, Big Sound and a lot of fun

is what you'll find in the BTS-102. With 2 large active drivers and a strong passive subwoofer this unit is ready to rock when you are.

Superior construction, Simplicity & Durability

are what separates the BTS-102 from all other similar Bluetooth devices.

Longer playing Battery life:

Utilizing a powerful built-in 2200mAh Rechargeable Lithium-Ion battery this device is ready to rock for up to 12 hours of Bluetooth streamed music and up to 15 hours of play time with the Aux-in connection. You can fully charge this powerful battery in under 3 hours.

Built-in Bluetooth technology Version 4.0 class II with simple one touch listening and convenient hands-free speaker phone utilizing the latest NFC technology.

For added bass response Sangean utilizes Dynamic Bass Boost (DBB) that will enhance the sonic low end giving you richer bass while adding to your stereo musical listening pleasure.
