## WR-5

FM- RBDS / AM / Aux-in  
Tabletop Wooden Cabinet Receiver Compatible with iPod

Color

Dark Walnut

The WR-5 AM/FM-RBDS digital tuning table-top radio with iPod docking station transforms your listening experience. Enjoy more choices such as the passive reflex and 3D expandable-design speakers with crystal-clear digital sound, and deep bass tones for more powerful overall sound. The new WR-5 iPod dock lets you enjoy your music the way it was meant to be heard.

### The dock adjustments to fit your iPod, no need to buy an adapter.

Made for iPods, this system allows you to listen to your favorite tunes using the integrated docking station. If you get bored with the songs on your iPod, the WR-5 has a built-in AM/FM tuner, letting you listen to your favorite music and talk radio. The large back-lit LCD that displays the current frequency as well as your current time makes it easier to navigate; it also features a unique rotary digital tuning and volume control on top of the unit. The tuner has memory for twelve presets and a telescoping antenna for better reception. You have a choice to be awakened with the radio, buzzer, line-in source, or iPod....also, a sleep timer lets you drift off to your favorite tunes.

### Classic Mid-Century Design with Modern Touches

An easy-to-see large, full-dot backlit LCD has brightness, contrast, and display mode adjustments. The WR-5 enclosure features full-range stereo speakers with a bass reflex system for tight, quality audio. Dial it in with treble and bass tone controls, and get a little more spaciousness with surround sound functions.

### Play and Charge Your iPod or iPhone

Play and control your iPod through the WR-5 system. It charges while docked, so it's ready to go when you are. You also can control iPod features from the included full-function remote control. The WR-5 has unparalleled versatility, easily fitting to any iPod (except 3rd generation). The dock adjustment dial moves the sliding dock backwards or forward to fit any size of iPod perfectly, no need to buy an optional iPod cradle adapter. (Note: It will not charge your iPod/iPhone while listening on AM/FM band)

### iPod, iPhone, Radio, or Buzzer Alarm

Wake to your docked iPod, the radio, or a classic buzzer alarm. A built-in sleep timer lets you fall asleep to your favorite music with peace of mind.

### Passive Bass Reflex for Expansive Sound

The passive bass reflex speaker built into the bottom of the WR-5 gives this radio a sound bigger than its size. Enjoy rich, immersive sound from your favorite Apple products without the need for an expensive speaker solution.

### Battery Backup and Full Function Remote

In addition to a built-in "super capacitor", the WR-5 features a worry-free battery backup keeps the clock radio working during power outages and you don't have to worry about resetting your preset memory and your alarm. No need to cross the room to change your playlist--an included full-function remote lets you control all aspects of the WR-5, including navigating and playing your iPod digital music library. Adjust the music to your listening preferences with the tone control. It even controls alarm functions, so you can hit "snooze" without ever touching the clock.
