

3A87eP1100010

03

Bluetooth	
Bluetooth version	5.0
Supported Bluetooth profiles	A2DP, AVRCP
Supported Bluetooth codecs	SBC and AAC
Transmitting Power	Power Class 2
Bluetooth range	approx. 10m (30feet)
The frequency and maximum transmitted power	2402MHz ~ 2480MHz: 3.51dBm (Bluetooth EDR)
Circuit features	
Loudspeaker	2 x 3inch + 2 x 4inch
Output power	10W x 2 + 25W (peak) 6W x 2 + 18W (continuous)
Headphone socket	3.5mm diameter, stereo
Aux In socket	3.5mm diameter, stereo
Line Out socket	3.5mm diameter, stereo
Digital optical output socket	Toslink
Aerial System	Wi-Fi antenna DAB Telescopic aerial FM Telescopic aerial
Operating temperature range	0°C to +40°C

Sangean reserves the right to amend the specifications without notice.

RECYCLING This product bears the selective sorting symbol for Waste electrical and electronic equipment (WEEE). This means that this product must be handled pursuant to European directive 2012/19/EU in order to be recycled or dismantled to minimize its impact on the environment.

F > Guide de démarrage rapide

Instructions importantes concernant la sécurité

- Lisez ces instructions.
- Conservez ces instructions.
- Tenez compte de toutes les mises en garde.
- Suivez toutes les instructions.
- N'utilisez pas cet appareil à proximité de l'eau.
- Ne nettoyez qu'à l'aide d'un lingé sec.
- N'obstruez aucune voie de ventilation. Installez conformément aux instructions du fabricant.
- N'installez pas à proximité de sources de chaleur telles que radiateurs, registre de

- chaleur, poêle ou autres appareils (y compris les amplificateurs) qui produisent de la chaleur.
- Ne sous-estimez pas l'objectif de sécurité des prises polarisées ou de type terre. Une prise polarisée a deux fiches dont l'une est plus large que l'autre. Une prise de type terre a deux fiches plus une fiche supplémentaire de raccord à la terre. La fiche large ou le raccord à la terre sont conçus pour votre sécurité. Si la prise fournie ne convient pas à votre équipement, consultez un électricien pour remplacer votre ancien équipement. Consultez un électricien pour remplacement de l'obsolet outlet.
- Protégez le cordon d'alimentation contre les piétinements ou les pincements, particulièrement au niveau des branchements, prises de courant, et du point d'où il sort de l'appareil.

GB > Quick Start Guide

Important safety instructions

- Read these instructions.
 - Keep these instructions.
 - Heed all warnings.
 - Follow all instructions.
 - Do not use this apparatus near water.
 - Clean only with dry cloth.
 - Do not block any ventilation openings. Install in accordance with the manufacturer's instructions.
 - Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
 - Do not defeat the safety purpose of the polarized or grounding-type plug. A polarized plug has two blades with one wider than the other. A grounding type plug has two blades and a third grounding prong. The wide blade or the third prong are provided for your safety. If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.
 - To prevent possible hearing damage, do not listen at high volume levels for long periods.
 - The marking information is located at the bottom of apparatus.
- CAUTION:** Risk of explosion if battery is replaced by an incorrect type.
- The symbol indicates class II equipment.
- The symbol indicates AC voltage.
- The symbol indicates DC voltage.
- 15.** To Reduce the Risk of Fire or Electric Shock, Do not Expose This Appliance to Rain or Moisture.
- 16.** The Shock Hazard Marking and Associated Graphic Symbol is provided on the rear of unit.
- 17.** Apparatus shall not be exposed to dripping or splashing and no objects filled with liquids, shall be placed on the apparatus.
- 18.** Excessive sound pressure on ears and headphones could impair the hearing ability. Higher setting on the equalizer leads to higher signal voltages on the output for ear and headphones.
- 19.** The power plug should be close to the radio, and easy to be approached that during the emergency, to disconnect the power from the radio, just unplug the power plug from the AC power slot.
- 20.** Where the MAINS plug or an appliance coupler is used as the disconnect device, the disconnected device shall remain readily operable.
- 21.** To prevent possible hearing damage, do not listen at high volume levels for long periods.
- 22.** The marking information is located at the bottom of apparatus.
- 23.** Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.
- 24.** Only use attachments / accessories specified by the manufacturer.
- 25.** Use only with the cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus. When a cart is used, use caution when moving the cart / apparatus combination to avoid injury from tip-over.
- 26.** Unplug this apparatus during lightning storms or when unused for long periods of time.
- 27.** Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged. Liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, the apparatus has been dropped or otherwise damaged, has been exposed to abnormal temperatures, has been left on continuously for long periods of time, or has been subjected to excessive vibration.
- 28.** The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.
- 29.** The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.
- 30.** The lightning flash with arrowhead symbol, within an equilateral triangle, is intended to alert the user to the presence of "dangerous voltage" within the product's enclosure that may be of sufficient magnitude to constitute a risk of electric shock to persons.
- 31.** The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.
- 32.** The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.
- 33.** The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.
- 34.** The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.
- 35.** The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.
- 36.** The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.
- 37.** The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.
- 38.** The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.
- 39.** The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.
- 40.** The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.
- 41.** The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.
- 42.** The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.
- 43.** The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.
- 44.** The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.
- 45.** The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.
- 46.** The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.
- 47.** The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.
- 48.** The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.
- 49.** The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.
- 50.** The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.
- 51.** The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.
- 52.** The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.
- 53.** The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.
- 54.** The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.
- 55.** The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.
- 56.** The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.
- 57.** The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.
- 58.** The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.
- 59.** The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.
- 60.** The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.
- 61.** The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.
- 62.** The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.
- 63.** The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.
- 64.** The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.
- 65.** The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.
- 66.** The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.
- 67.** The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.
- 68.** The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.
- 69.** The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.
- 70.** The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.
- 71.** The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.
- 72.** The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.
- 73.** The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.
- 74.** The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.
- 75.** The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.
- 76.** The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.
- 77.** The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.
- 78.** The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.
- 79.** The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.
- 80.** The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.
- 81.** The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.
- 82.** The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.
- 83.** The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.
- 84.** The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.
- 85.** The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.
- 86.** The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.
- 87.** The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.
- 88.** The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.
- 89.** The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.
- 90.** The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.
- 91.** The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.
- 92.** The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.
- 93.** The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.
- 94.** The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.
- 95.** The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.
- 96.** The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.
- 97.** The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.
- 98.** The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.
- 99.** The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.
- 100.** The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.
- 101.** The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.
- 102.** The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.
- 103.** The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.
- 104.** The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.
- 105.** The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.
- 106.** The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.
- 107.** The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.
- 108.** The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.
- 109.** The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.
- 110.** The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.
- 111.** The exclamation point within an equilateral triangle is

17. El aparato no debe ser expuesto a goteos ni salpicaduras y no deberán colocarse objetos que contengan líquidos sobre este.
18. Una presión sonora excesiva en los oídos procedente de los auriculares podrían dañar su capacidad auditiva. Un ajuste del equalizador por encima del nivel neutro puede causar mayores voltajes de señal en la salida para los oídos y los auriculares.
19. El enchufe deberá encontrarse cerca de la radio y ser fácilmente accesible, de modo que, en caso de emergencia, para desconectarlo con rapidez baste con desenchufarlo de la toma de corriente.
20. El dispositivo desconectado deberá permanecer operativo allá donde el enchufe o el adaptador del aparato se usen como elementos de desconexión.
21. Para evitar posibles daños auditivos, no escuche a un volumen elevado durante largos períodos.
22. La información de marcado se encuentra en la parte inferior del aparato.

PRECAUCIÓN: Riesgo de explosión si la batería se reemplaza por el tipo incorrecto.

Este símbolo indica que es un equipo de clase II.

Este símbolo indica voltaje de CA.

Este símbolo indica voltaje de CC.

El símbolo del relámpago con punta de flecha dentro de un triángulo equilátero, busca alertar al usuario de la presencia de "voltaje peligroso" no aislado dentro de la carcasa del producto que puede ser de magnitud suficiente como para constituir un riesgo de descarga eléctrica para las personas.

El signo de exclamación dentro de un triángulo equilátero buscar alertar al usuario sobre la presencia de instrucciones importantes de uso y mantenimiento (servicio) en el folleto que acompaña al aparato.

PRECAUCIÓN: Estas instrucciones de mantenimiento son para el uso exclusivo de personal cualificado. Para reducir el riesgo de descarga eléctrica, no lleve a cabo ninguna tarea de mantenimiento que no esté incluida en las instrucciones de funcionamiento, a menos que esté calificado para ello.

Preparación para su uso (Imagen 1)

1. Abra el compartimento de las pilas del mando a distancia y coloque dos pilas AAA según el diagrama dentro del compartimento. A continuación, cierre el compartimento de las pilas.

2. Conecte el cable de alimentación de CA a la toma de entrada de CA en la parte posterior de la radio e inserte el enchufe en una toma de pared (100-240 V ~ 50/60 Hz).

3. Si es la primera vez que usa la radio (o tras

un restablecimiento de los valores de fábrica), complete la configuración inicial de la radio siguiendo las instrucciones que aparecen en pantalla del asistente de configuración de la radio.

4. Despues de completar el asistente de configuración, la radio estará lista para usarse.

NOTAS:

(1) Para usar la funcionalidad de internet de la DDR-75BT, debe estar conectada a una red que tenga acceso a internet durante el asistente de configuración.

(2) Para controlar la radio mediante la aplicación UNDOK, la radio debe estar conectada a una red que tenga acceso a internet.

(3) Descargue e instale la aplicación UNDOK para el dispositivo buscando "UNDOK" en la App Store de Apple o en el Play Store de Google (para Android).

Escuchar la radio (Imagen 2)

1. Presione el **botón de encendido** para encender la radio.

2. Presione el **botón de modo y, a continuación, presione los botones de sintonizar hacia arriba o hacia abajo** (alternativamente, los **botones de carpeta hacia arriba o hacia abajo**) para seleccionar el modo de funcionamiento deseado. Presione el **botón de seleccionar** para confirmar la elección.

3. Mantenga presionado el **botón de información / menú** para acceder al menú de cada modo. Resalte el elemento del menú usando los **botones de sintonizar hacia arriba o hacia abajo** (alternativamente, los **botones de carpeta hacia arriba o hacia abajo**). Presione el **botón de seleccionar** para seleccionar ese elemento.

4. Para volver al menú anterior, presione el **botón de atrás**.

5. El **botón de información** le permite visualizar la información relacionada con la emisora de radio o el archivo de música que se esté reproduciendo. Presione el **botón de información** para recorrer las diferentes opciones.

6. Use el **control de volumen** para ajustar el nivel de volumen según sea necesario.

7. **Guardar una presintonía usando el menú:** Mantenga presionado el **botón de seleccionar**. En pantalla se mostrará el menú "Save to Preset" (Guardar en presintonía). Presione los **botones de sintonizar hacia arriba o hacia abajo** (alternativamente, los **botones de carpeta hacia arriba o hacia abajo**) para desplazarse por la lista de presintonías hasta llegar a una presintonía no usada o una que deseé cambiar. Presione el **botón de seleccionar** para guardar la presintonía. En pantalla se mostrará "Preset stored" (Presintonía guardada). Repita este procedimiento según sea necesario para el resto de presintonías.

Guardar una presintonía (1-10) usando el mando a distancia: Para guardar la emisora de radio que se esté reproduciendo actualmente como una presintonía, mantenga presionado el

botón de presintonía (1-10) deseado en el mando a distancia hasta que en pantalla se muestre "Preset stored" (Presintonía guardada). La emisora se guardará en el botón de presintonía elegido.

Selecionar una presintonía (1-10) usando el mando a distancia:

Presione el **botón de seleccionar** para mostrar el menú de "Recall from Preset" (Seleccionar de presintonías). Presione los **botones de sintonizar hacia arriba o hacia abajo** (alternativamente, los

Especificaciones

Requisitos de alimentación

Fuente de alimentación de la red	CA 100-240 V, 50/60 Hz / 66W
Pilas del mando a distancia	2 pilas AAA

Cobertura de frecuencia

FM	87.5-108 MHz
DAB	174.928-239.200 MHz

Conectividad

Ethernet por cable	10/100 Mbit/s a través del conector RJ-45 802.11 b, g, n o a compatible con cifrado WEP y WPA / WPA2. Compatible con bandas Wi-Fi de 2,4GHz y 5GHz. Frecuencia y potencia máxima transmitida: Wi-Fi: 2412MHz ~ 2472MHz, PIRE = 16,63dBm 5180MHz ~ 5240MHz y 5745MHz ~ 5825MHz, PIRE = 12,36dBm Las operaciones en la banda de 5,15-5,35 GHz están restringidas únicamente al uso en interiores.
--------------------	--

Bluetooth

Versión Bluetooth	5.0
Perfiles Bluetooth compatibles	A2DP, AVRCP
Códigos Bluetooth compatibles	SBC y AAC
Potencia de transmisión	Clase 2
Alcance de Bluetooth	Aproximadamente 10m (30pies)
Frecuencia y potencia máxima transmitida	2402MHz ~ 2480MHz: 3,51dBm (Bluetooth EDR)

Características del circuito

Altavoces	2 de 3 pulgadas y 2 de 4 pulgadas 10W x 2 y 25W (pico)
Potencia de salida	6W x 2 y 18W (continuo)
Toma de auriculares	3,5mm de diámetro, estéreo

RECICLAGE - Este producto lleva el símbolo de clasificación selectiva de Residuos de aparatos eléctricos y electrónicos (RAEE). Esto significa que este producto debe manipularse de acuerdo con la directiva europea 2012/19/UE para ser reciclado o desmontado para minimizar su impacto en el medio ambiente.

14. Haal de stekker van het apparaat uit het stopcontact tijdens onweer of als het apparaat voor lange tijd niet wordt gebruikt. Laat alle onderhoud over aan gekwalificeerd onderhoudspersoneel. Er is onderhoud nodig wanneer het apparaat is beschadigd, bijvoorbeeld wanneer het netsnoer is gescheurd, er vloeistof is gemorst of op voorwerpen zijn gevallen in het apparaat, zijn gevallen, het apparaat is blootgesteld aan regen of vocht, niet normaal werkt of is gevallen.

15. Stel het apparaat niet bloot aan orval of rook, omdat water en vuur een risico van elektrische schokken beperken, dient u geen onderhoud uit te voeren dat niet in de handleiding wordt beschreven, tenzij u daarvoor gekwalificeerd bent.

16. De schokgevaar-markering en de bijbehorende afbeelding staan op de achterkant van het apparaat.

17. Het apparaat mag niet worden blootgesteld aan druppels of spattend water en er mogen geen voorwerpen gevuld met vloeistof op het apparaat worden geplaatst.

18. Om zeil de veiligheidsdoeleinden van de geoplaardeerde stekker niet. Een geoplaardeerde stekker heeft twee pinnen, één is breder dan de ander. Een geaderde stekker heeft twee pinnen die verschillen in grootte en vorm. De brede pin of derde pin is voor uw veiligheid. Als de geleverde stekker niet in uw stopcontact past moet u een elektricien raadplegen voor vervanging van het verouerde stopcontact.

19. De stekker moet zich in de buurt van de radio bevinden en moet altijd eenvoudig bereikt kunnen worden, zodat u de radio eenvoudig van het lichtnet kunt ontkoppelen in geval van nood. Haal in zo'n geval gewoon de stekker uit het stopcontact.

20. Gebruik alleen accessoires / hulpkunststukken die door de fabrikant zijn gespecificeerd.

21. Alleen gebruiken met het wagentje, standaard, driepoot, haak of tafel die door de fabrikant of verkoper met het apparaat. Beweeg, als er.

22. Luister niet voor lange perioden op hoog volume om mogelijke gehoorschade te voorkomen.

23. De markeringsinformatie bevindt zich aan de achterkant van het apparaat.
