

BluTab BTS-101

**Portable Stereo
Bluetooth Speaker**

Color

Gray-Black

If you like taking your music with you the BTS-101 personal and portable Bluetooth speaker is the choice for you. With 2 Highly Powerful Acoustic Drivers accompanied by a Passive Subwoofer to produce a wide audio spectrum this unit is ideal for any situation. Enjoy cleaner, richer and longer lasting sound when your on the go.

Longer playing Battery life:

With a 2200mAh Rechargeable Lithium-ion battery this device is ready to rock for up to 12 hours of Bluetooth streamed music and up to 15 hours of play time with the Aux-in connection. You can fully charge this powerful battery in under 5 hours.

Dynamic Distortion Compression:

Automatically reduces the output level when serious clipping has been detected, therefore the BluTab can maintain acceptable distortion even if the input is at an extreme level.

NFC Bluetooth connection allows you to connect your portable

devices with a single touch. Just touch your NFC device to the speaker to complete the set-up of enabling, pairing and establishing your Bluetooth connection.
